### Death of Dr. McCaul.

Rev. Dr. McCaul, late President of University College, Toronto, died on Saturday morning 16th inst. Dr. McCaul was born in Dublin in 1807, and was educated at Trinity College, where he graduated with the highest honors in classics. For some time he filled the position of classical tutor in that institution, and in 1839, on the invitation of Dr. Harley, then Archbishop of Canterbury, accepted the principalship of Upper Canada College. In 1849 he became the president and professor of classics, logic, rhetoric and belles lettres in King's College, which by the Act of 1849 became the University of Toronto, and was freed forever from sectarian control. From that time up to the date of his retirement from all literary work, Dr. McCaul uninterruptedly filled the chair of classics in the university, of which for some years he was also the president. He was a classical scholar of world-wide reputation, and the author of numerous treatics on Greek and Latin literature. His wife, who is the daughter of the late Hon. Justice Jones, and three sons and three daughters, survive him.

### A Splendid City.

Says the Toronto *Presbyterian Review*: Let us glance at the work in these new fields, beginning with our newest field, British Columbia. It is a cause for deep gratitude that our work there is making progress with a wonderful rapidity. We have now a presbytery there, and that presbytery as may be seen from the report of its meeting in another column is doing its work with great energy and success. New Westminster has now the Rev. Thomas Scouler, formerly of Hamilton, as its minister, and he has entered upon his work under the happiest auspices. Already Vancouver has undertaken to stand alone and to be self-supporting, thanks to the faithful and devoted labors of the Rev. T. J. Thomson, whose name is familiar to our readers through the events connected with the burning of the city. Vancouver, it may be said, has been purified by fire and gives promise of rising out of its ashes a splendid city and one of which we trust it may be said the Lord is there.

### Secession In Nova Scotia.

The resolution moved in the Nova Scotia Assembly by the Hon. Mr. Fielding, Premier, last week, reiterating all the grievances of that province, concludes thus: "That this House strongly reaffirms the declaration of the last House that Nova Scotia suffers great disadvantages, and declares the opinion that unless a very material change takes place in the financial affairs and commercial relations whereby the position of the province will be necessary to again submit the question of seperation from Canada to the people of the province for division." A debate ensued thereon. It is said that there will be another general election this summer in that province.

## CANADA'S PARLIAMENT

### First Session of the Sixth Parliament of Canada.

OTTAWA, April 15.—On the House assembling this afternoon Mr. Weldon (St. John), seconded by Mr. Gilmour, moved, "that the papers in the case of the Queens, N. B., election be read.

Sir John Macdonald supposed it meant that the papers should be taken as read.

Mr. Blake said no; he thought it would be necessary to follow up the papers with a motion.

The papers were then read by the Deputy Clerk, but were almost unintelligible from the broken English of the reader.

Mr. Weldon (St. John) said it was an important question whether a returning officer could set aside the wishes of the electorate, and he read a paper certified by Mr. Baird declaring that Mr. King had, to his knowledge, 1,191 votes, while he (Mr. Baird) had 1,130 polled for him. He believed that to be a correct statement. He read the law as it stands in regard to the duty of the returning officer. That law was distinct, and, while it remained law, should be enforced. The returning officer's duty was simply arithmetical.

Mr. Gilmore moved and Mr. Weldon seconded a motion—"That Returning Officer, John R. Dunn, of Queen's county, N. B., be instructed by telegraph to transmit at once to the Clerk of the Crown in Chancery the poll books, certified returns, ballots and other papers connected with the late election in that county."

Sir John concurred in the motion.

On the reading of Mr. Bowell's motion that a select committee be appointed to supervise the official report of the debates of the Commons for the present session, composed of Messrs. Baker, Bechard, Charlton, Colby, Davin, Desjardines, Ellis, Innes, McIntyre, Royal, Taylor, Tupper (Picton) and Weldon (Albert). Mr. Blake objected on the ground that the government was endeavoring to strengthen itself by reducing the number of Reformers and adding more of themselves. There were now eight Ministerialists and five of the Opposition. He believed the work would be better done by a small committee than by a large. He asked the House, therefore, to remember the construction of the committees, substituting Mr. Scrivner for Mr. McIntyre, and adding Mr. Somerville, of North Brant.

Mr. Bowell agreed to this change, although he did not believe the names to have been altered in order to secure any advantage to the government.

Mr. Porter moved a reply to the speech from the throne in the regulation schoolboy style, entreating leniency for his shortcomings, and pathetically imploring the House to remember he was only a young member. His speech was a mild, congratulatory jubilee address, given with a fine regard for the Queen's English.

Mr. Weldon (Albert) seconded the motion, touching mainly on the fisheries question, and lauding the present treaty with the United States.

Mr. Blake said he loved the reign of the Queen because it meant a reign of freedom and self-government, the one blot of which was on a portion of the United Kingdom where there was no government conceded to the wishes of the people, and it would be a grand jubilee if the system of local self-government were universally applied. In speaking of the speech from the throne, he said he had never read one which promised less. He hoped the result would be stronger than the statement.

Sir John Macdonald then indulged in a tarantiddle over the speech, dwelling particularly on the harmony between the government and the opposition on the matter, and the magnificent manner in which the present government had succeeded in developing the resources of the country.

OTTAWA, April 20.—The first debate of the season took place to-day. It was on the returning officers and franchise question brought up by the motion of the Hon. David Mills. The gazetting of members was also referred to. Sir John defended the government as did also Mr. Patterson, of Essex. Hon. Mr. Blake, Sir Richard Cartwright, Hon. Thomas White and other prominent members took part, as did also several of the new members. Mr. Mills' motion was agreed to, ordering the attendance at the bar of the House of the Clerk of the Crown in Chancery with the election returns, etc.

After the debate Sir John announced the election of Hudspeth, in South Victoria, and promising the Liberals 60 days to get at him, thereby showing his control of the Clerk of the Crown.

Mr. Blake said 30 days was enough to reach this several times appointed, several times resigning and several times returned partisan. The debate was of consequence only as showing it to be the most immoral election since Confederation.

Mr. Robert Watson, M. P., for Marquette, Man., has placed the following on the notice of motion paper:

"That discontent has been created by reason of the policy of disallowance, and that the rights of the Province and the interests of Manitoba and the declared policy of the government all point to the propriety of no longer persisting therein. That an address be presented to the Governor-General, setting forth preceding resolutions, and praying His Excellency to be graciously pleased to effectuate the altered policy stated to the House of Commons on 5th February, 1884, and in pursuance thereof to leave to their operations any acts of the Local Legislature not otherwise objectionable which have been or may be passed for the construction of railway lines within the Province of Manitoba."

### PARLIAMENTARY NOTES.

The Minister of Agriculture in his report says, that during the year over 122,000 emigrants arrived in Canada against 105,000 for the former year; actual settlers over 59,000. Of these landing over 2,000 were farmers. Assisted passages were given only to agricultural laborers and domestics. Few mechanics arrived. The total expenditure for emigration was $801,000. Quarantine, $121,000. The value of effects and cash brought by emigrants was 3½ millions.

Mr. Davin introduced a bill to amend the Dominion Lands Act and permit a second homesteading and in certain cases to allow settlers to leave homesteads to work without forfeiture; also to permit squatting on school and Hudson's Bay Co. with compensation to the owners from the government.

Sir John introduced a bill to establish the new department of trade and commerce.

Mr. Royal presented the petition of the Winnipeg, St. Boniface and Carillon railway, asking for $75,000.

Delegations continue to reach Ottawa to interview Sir Charles Tupper on the tariff.

The government will not give aid to jubilee celebrations anywhere. Reviews must be at the expense of the battalions.

The salaries of revising officers is not yet fixed. $44,000 has already been paid out.

The Department of Agriculture reports show a large increase of patents last year over the previous year.

The minister states his intention to start experimental farms in Manitoba and the Northwest Territories this year.

The Department of Agriculture give the following total population of Manitoba, 108,640, of which the whites are 95,455.

The Customs Department will cancel the order recently passed changing the regulations governing the examination of travelers' baggage.

Enquiry into the matter in governmental circles elicits the information that it is pretty thoroughly understood that the Dominion Government and Canadian Pacific have come to an understanding, and that monopoly in Manitoba will be continued. Assurances that were not kept are said to have been given the Grand Trunk in this matter.

### EASTERN CANADA NEWS.

QUEEN'S JUBILEE.

OTTAWA, April 23.—The 22nd of June has been officially set apart by the Government, as the day for celebrating the Queen's Jubilee.

MONTREAL LAND LEAGUE.

MONTREAL, April 23.—At a meeting of the Montreal branch of the Irish Land League yesterday p. m., the president read a cablegram stating that Wm. O'Brien, editor of the *United Ireland*, would visit Canada and a committee was appointed to make arrangements for his reception.

GRIFFINTOWN AGAIN FLOODED.

The water in the river has been fluctuating all day yesterday and last night had an upper tendency. Ice is piled very high between Longueil and the Boucherville islands, and from an elevated position before dark last evening the ice appeared to be moving some miles down the river.

Two funerals took place in boats in Griffintown yesterday and the civic relief committee of aldermen were reported to be busy all day distributing relief. The distress among some of the poor families in the suburban districts is very great and many appeals for food were made yesterday and this morning.

FLOOD SUBSIDING.

MONTREAL, April 25.—The water of the St. Lawrence is slowly subsiding, but it is feared that the gorge may break at any moment and cause further damage.

ANOTHER TRAIN JUMPS A BRIDGE.

A Morrisburg dispatch of the 22nd states that a freight train on the Grand Trunk railway went over the bridge at Nash's Creek, near that town, last Friday morning. The engineer and fireman were instantly killed. The conductor and brakesman escaped. Thirteen cars were piled in the gorge of the creek, which was a foaming current at the time in consequence of the spring freshets. The loss will be very heavy.

## THE SEAL FISHERIES.

### No Decision Yet Arrived at in Washington by the President.

WASHINGTON, D. C. April 25.—The report that the President has issued an order defining the protection of the seal fisheries to within one league of the shores of the Islands leased to the Alaska Commercial Company is without foundation. Secretary Fairchild states that no ruling has been made by the President on this question, and it was not probable that any decision would be reached before the last of the month. The trouble is to reconcile the claim of the Commercial Company for protection against sealers in the Eastern half of Behring Sea with the contention on the part of our government to keep American fishermen from following their pursuit outside a marine league from the shore line of the Dominion provinces.

### CALIFORNIAN DRESSED DOWN.

TO THE EDITOR OF THE TIMES:

SIR,—Having picked up a copy of the *Colonist* of the 22nd inst., and in perusing its columns I read a letter signed "Californian." Now sir, the plain fact of the matter is Captain Huntington did get round as "Californian" says; but at the same time he or Captain Huntington willfully falsifies the truth when he states that there are only two "antiquated" pumps here. The writer is in a position to give "Californian" the lie, as I know of one gentleman who showed Capt. Huntington that there was at the disposal of one of the tenderers three pumps of the following sizes, viz.: One twelve-inch, one six-inch and one five-inch, which would be ample to pump the Mexico out, if their tender had been accepted. But it is plain to me that this was not the object of the San Francisco underwriters in this matter. There is always a wheel within a wheel, and if it was, as "California" states, pumps could be had from the same source as Captain Bruce is getting them from or otherwise. But what can the people of this city expect when one of our principal citizens, and also our Collector of Customs are in sympathy with outsiders, particularly Mr. Finlayson, the above citizen referred to. It is a well-known fact that when the divers who were up here last fall surveying the steamer Barnard Castle had a rebate of ninety per cent. on the duty paid on their diving gear. This was certainly to the detriment of our local divers and wreckers. Touching the remarks of Californian about the Barnard Castle, They are childish, for it is well known there was none here asked to raise her, not even tenders called for, other than privately, so as to give the San Francisco wreckers a chance to underbid for the work. In conclusion, I would tell Californian that there are as good men, and as able, in this place as there are in the United States. Let Canadians cross over to the United States and attempt to do any wrecking, they will soon see what kind of a reception they would receive. Trusting you will pardon me for intruding on your valuable space, I beg to remain yours, SHYLOCK.

## BEGGARS DESCRIPTION

### Fatal Accident on the Cascade Division N. P. R. R.

### The Hotel del Monte Fire--The Clerk Arrested for the Crime.

A TERRIBLE RAILWAY ACCIDENT.

CHICAGO, April 25.—It has just been learned that on Thursday afternoon between 3 and 4 o'clock a terrible accident occurred on the Cascade division of the Northern Pacific, four miles beyond Cleelum. A west-bound train pushing a flat car loaded with laborers was going around a curve leading to a trestle at a good rate of speed when it ran into a "hog" engine, which was going east. The tender of the first flat car passed half way through the tender (?) and crushed up against the pilot of the west-bound train, on which were two men. The unfortunates were crushed to a pulp, only one foot and one hand being left by which to identify them. The "hog" engine was knocked a distance of eight feet. Five men were killed outright and one has since died. The injured numbered 18. All of the physicians of Ellensburg were immediately sent to the front by a special train and rendered every service possible. The scene of the accident as described by those present beggars description. Blood and gore is scattered in every direction, and neighboring rocks bear evidence of the fearful carnage. The accident was the fault of one of the train's crew neglecting to flag as per orders. The dead and injured were brought to Cleelum on Thursday night. The District Attorney has gone to the scene of the accident to make an examination. There is no coroner in Kittitas county, so the jury will be impanelled by the nearest Justice of the Peace. This is the worst accident that has happened in either the construction or the operation of the road.

THE HOTEL DEL MONTE FIRE.

MONTEREY, April 25.—The evidence against Simmons, who was arrested on Saturday, charged with having fired the Hotel Del Monte, is said to be very strong. It is known beyond a doubt that the water-pipes had been tampered with and all circumstances point to the probability that the whole matter had been thought out by some person who determined to make a success of the scheme. The man who set fire to the hotel did so with the intention of making a clean sweep, and fully succeeded. The whole evidence of his guilt is not yet known, but it is said by Chief Brown that they have their eye on witnesses who will testify that they saw Simmons walk from the direction of the fire a few minutes before the flames were discovered; also, that when it was found that the books were uninjured by the fire the investigation was made, at which it was discovered that Simmons was four hundred dollars short in his accounts. Another statement is that at the time of the fire, when everyone was doing all they could to save property, Simmons was walking around with his hands in his pockets. When requested to lend his assistance, he replied, "No, I have nothing more to do with this place."

WOMEN COUNTERFEITERS.

NEW YORK, April 25.—United States secret service officers, late on Saturday, arrested two women named Mrs. Annie Kelly and Miss Ellen Barrett, who have been engaged counterfeiting silver coins for a number of months. The officers caught the women at work and captured thirteen plaster of paris mouldings and 168 counterfeit dollars. The Kelly woman is the wife of the notorious George Kelly, counterfeiter, who is supposed to be in Paris. Miss Barrett is 21 years old, and is Mrs. Kelly's sister. When arraigned before the United States Commissioner to-day Mrs. Kelly said she had been making counterfeits for months and had been "shoving" them among Italians.

NON-INTERCOURSE.

WASHINGTON, April 25.—A special to the *Post* says: There are some indications that a proclamation of non-intercourse with Canada on the basis of Edmunds' bill, is regarded as possible, while Salisbury's latest proposition, to extend the provisions of the Washington treaty without the indemnity clause, is considered at Gloucester an impudent proposition, because of its carrying with it the free fish clause, which was not included in Secretary Bayard's temporary surrender of their interests. The conclusion is therefore believed to be inevitable that non-intercourse will first have to be proclaimed, to be followed, as is anticipated, by a joint committee to adjust matters in dispute.

SENATOR MITCHELL'S DAUGHTER.

CHICAGO, April 25.—A Washington special to the *News* says a rumor is being circulated there that the British Minister, Sir Lionel West, is soon to marry the daughter of Senator Mitchell, of Oregon. The foundation for the rumor is said to be owing to the fact that the Minister has invited Miss Mitchell to accompany himself and daughters to England for the summer.

A CHIEF CLERK DEAD.

WASHINGTON, April 25.—Jas. H. Marr, chief clerk to the first assistant postmaster-general, died this morning. He has been chief clerk since 1869.

## POLICE COURT.

(Before Mr. E. Johnson, S. M.)

John Leahy and Geo. Johnson, assaulting Officer Hoosan while in the discharge of his duty; fined $25 each, or one month.

## FROM ALASKA.

### The News by the Ancon--Great Mining Developments, Etc.

The Ancon brought 300 tons of freight from Alaska, composed as follows: 695 sacks of guano, 915 barrels of oil from Killisnoo, and 100 bales of deer skins from various ports.

The Port Townsend correspondent of the *Post-Intelligencer* sends to that journal the following items of news from the Northern Territory:

MINING PROSPECTS.

The past winter has been the severest known in many years. Mr. J. G. Hammond, an old and well-known mining engineer, reports that the outlook for the summer is better than he has ever seen, even in the palmiest days of California. In the immediate vicinity of Juneau many ledges have been discovered that appear to have well-paying ores. The range in width is from a few feet up to six hundred. The quartz is generally of a character that is easily worked. The quartz is soft and easily crushed; some of it is free-milling, and some contains a large percentage of chlorides.

THE GENERAL AVERAGE WORTH

per ton runs from $2.50 up to $50. These are located low down, some at the very edge of tide water. Although but little prospecting has been done higher up, on account of the snow and ice, yet many rich leads are reported, and some were found while "stripping" off the surface earth in placer mining. The leads higher up are the richer. In fact, in almost every gulch can be found croppings of gold.

TWO SAWMILLS WERE STARTED

up this month, and are turning out a considerable quantity of lumber. Buildings are being erected in the town and Juneau bids fair to have a building boom this summer, as materials are quite plentiful.

THE SILVER BOW BASIN

mine had a new stamp mill erected and started into operation on the 1st inst. The proposed tunnel of the Union and Alaska Mining Company was surveyed recently. It will be 900 feet long and eight feet square. At the east end of the tunnel will be placed a 60 horse power air compressor for the operation of four drills. At the outer end will be erected a large ore bin, and also one back of the mill, the two to be connected by a tramway 2400 feet long. The work is now well under way.

DOUGLAS ISLAND.

The Treadwell Mining Company is taking out a large quantity of mineral. The average worth per ton is $15. A large number of miners are engaged night and day. The tunnel extends back nearly 600 feet, with numerous side tunnels. A large quantity of the latest improved machinery has been erected, and the improvements alone are estimated to be worth over a quarter of a million dollars.

THE HOONAH MISSION

Is situated on Chichangoff Island, and consists of about twenty houses, with an Indian population of nearly 200. The mission was established in 1884 by Rev. and Mrs. John W. McFarland, who have resided in Alaska for the past eight years. They arrived in Port Townsend yesterday, en route to Pennsylvania on a visit. The school is discontinued in the spring and the Indians go off in several directions to the various canneries and engage in fishing during the summer.

AN OLD INDIAN DOCTOR

failed to cure a disease that was contracted by one of the tribe, and the rest cut his hair off, which utterly debars him from the medical profession. The school is supported by the Board of Home Mission of New York, aided by the government.

A STRIKE.

The Indians employed in the mines on Douglas Island struck on the 16th inst., for a "raise" in their wages from $2 to $2.50 per day. Mr. Treadwell promptly informed them that they could resume work at $1.50 per day or leave.

THE PALACE THEATRE

at Juneau announces that they will have a minstrel troupe shortly from San Francisco that will eclipse anything hitherto produced for the amusement lovers of Alaska.

NOTES.

On Judge Williams' arrival on the last steamer, accompanied by his bride, the Juneau band serenaded him, and afterwards a banquet was spread.

James Pullen, an old mining man, well known all over the coast, was drowned accidentally on March 28th while returning home from his day's labor.

F. L. Bangs, convicted of smuggling last month in Sitka, received a sentence of two years in jail and to pay a fine of $2000, the full extent of the law.

### Cabinet Representation.

The gallery correspondent of the Montreal *Herald* writing from Ottawa in discussing the probability of Cabinet representation being given the Northwest which on account of its being all but a unit for the Conservatives is fairly entitled to one, mentions the name of Mr. E. Crow Baker of this city as a most likely man. The names of Messrs. J. A. Mara, N. F. Davin, W. B. Scarth and A. W. Ross are mentioned in political circles. Failing to grant the request for Cabinet representation, it is believed that some other arrangement will be perfected whereby the voice of the people will be brought more directly to the notice of the Cabinet than at present.

### Higher Up.

There was a row this week in one of the saloons at Vancouver and fourteen or fifteen persons were slightly wounded; amongst these Mrs. Davy, who blushed and smiled and appeared to be a novice in court. She was addressed by Police Magistrate Black, who said: "And so Mrs. Davy, you were hit in this *fracas*?"

Mrs. Davy—It was higher up, sir; I was hit on the nose.

She smiled again and left the court, looking quite heroic.—*Guardian*.

### The Concordia Theatre.

This popular resort for lovers of first class variety entertainment, is not only building up an enviable reputation, but is actually producing the very best talent that can be found on the variety stage. With such artists as the Bickets, Cain and Haywood, Lavender and Thompson, Miss Whitcomb, and last but not least the old favorite Billy Gilbert, its success is certain.

## SCHNAEBEL'S ARREST

### Causes a Decline in the Berlin and London Stock Markets.

### Lansdowne Settles With His Tenants--Alarm in Berlin.

LANSDOWNE SETTLES.

DUBLIN, April 25.—The trouble between Lord Lansdowne and his tenants has been settled to the satisfaction of all parties.

PARIS RACES.

PARIS, April 24.—The Poules Dessai races were run to-day. The race for fillies, $200 each; $120 for first, or $100 only if declared, with $450 added, of which $400 went to the second; distance one mile, was won by M. Ammont's Tenebres; M. Luper's Cindas second, and M. Ephaussi's Bavaria third. The race for colts, under the same conditions, was won by Baron De Rothschild's Brie, with Baron De Checkler's Lounney second, and C. J. Fevre's Propetel third.

FINANCIAL.

Paris April 25—4 p. m.—Three per cents rentes opened to-day at 75 francs 90 centimes, a decline of 15 centimes from Saturday closing, and closed at 60 francs 15 centimes.

LONDON, April 25—4 p. m.—The movement in consols to-day was slight and closing quotations should advance 1-10th for both money and accounts over Saturday's close.

ALARM IN BERLIN.

BERLIN, April 25.—The tone of the comments of the press on Schnaebels affairs, and fresh rumors in relation to the first are causing alarm in Berlin.

SCHNAEBEL'S ARREST.

In the office of Commissary Schnaebel's there has been found a letter from Commissary Gautzet addressed to Schnaebel, written last Tuesday. It begins: "My dear colleague," and says "I have a communication to make to you which concerns neither the French nor the German governments, but make it that we must be alone, and if you think fit we can profit by the blown down frontier pole to talk there." Schnaebel is a Knight of the Legion of Honor. He refused a high German office in 1870 and was immediately expelled from Germany.

BISMARCK'S REGRETS.

PARIS, April 25.—It is stated that Von Seydeon, German Charge d' Affairs, has informed Flourens, minister of foreign affairs, that Bismarck regretted that the Leipsic Court had ordered the arrest of Schnaebels without consulting the Chancellor.

GOSSIP FROM VIENNA.

VIENNA, April 25.—The reports of a discussion between the King and Queen of Servia are semi-officially declared to be untrue.

Startling rumors are current here of the discovery of Anarchists' plots to destroy the opera house and numerous factories at Pesth. It is stated that only the extreme vigilance of the police prevented the conspirators from carrying out their designs.

ONE HUNDRED KILLED.

BOMBAY, April 25.—The Emilzar's Ghilsear tribe have defeated the Ameer's troops and killed one hundred of them at Baboo Castle, near Khelats.

### More Proof Coming.

Mr. Ellie Ellen's daughter, of Truckee, Cal., and his attorney will arrive by the Geo. E. Starr in the morning with evidence against A. P. Clark, arrested here for extradition on a charge of perjury. The case will come up in the Supreme Court before Mr. Justice Crease on Thursday morning next at 11 o'clock.

### Entertainment.

At Blue Ribbon hall, Esquimalt, to-night, a grand dramatic entertainment will be given by the officers of H. M. S. Cormorant assisted by amateurs, in aid of the Esquimalt parish work. "Slusher and Crasher" followed by a "Regular Fix" will be produced. 'Busses will leave the P. O. at 7 o'clock this evening for the hall. The splendid band of the Triumph will also play some choice selections.

### New Building.

Mr. J. Teague, architect, calls for tenders for a new three story brick building, to be erected on Baston square for Mr. T. J. Barnes. The building will face Baston square the main building having a frontage thereon of 37 feet and a wing 90 feet. The main structure will be 118 feet in depth, and will be used for offices and mercantile business. It will be a great improvement to the square.

**It Is Wise**

to remember that the largest stock gives you greater advantages in selection. The newest stock is the best value, and the men who sell on short accounts or for cash sell cheapest, and it is also wise to remember that you get all these advantages when buying of the B.C. Stationery Company, next door to the postoffice, late J. B. Ferguson & Co.

### For the North.

The U. S. revenue cutter Bear was at Vallejo, Cal., last week, preparing for her summer trip to Behring Sea; to protect U. S. sealing interests. She was expected to leave on the cruise not later than Saturday last and as this time is presumably on her way north.

### The Teaser.

The work on the cabins and superstructure of the Teaser is being rapidly shoved forward by Muirhead & Mann, and this popular steamer will soon be ready for work again. It is proposed to change the name to something more auspicious.

### Piscatorial.

Nearly five hundred beautiful trout were caught in Sooke Lake yesterday by about a dozen fishermen. At Shawnigan Lake, on Saturday last, forty very large and beautiful ones were caught in a few hours. At the other lakes good fishing is also to be had.

### Nearly Fatal.

Mr. John Boyd, while returning to his store to-day in a wagon, met with a nasty serious accident. The wheels of the vehicle ran into the gutter and Mr. Boyd was pitched out on his head. He was at once carried into the store in a fainting condition.

### Consignees.

Per the North Pacific to-day: H. C. Mills, Moore & Co., S. Leiser, McDonald Bros., T. Earle, Croft & Angus, R. Janion.

## CANADA'S INDEBTEDNESS.

A copy of the Dominion public accounts for the year ending 30th last June has reached THE TIMES office. These confirm the opinion frequently expressed in these columns that the debt of the country was much larger than it was stated to be in the ministerial press. The Hon. THOMAS WHITE, in the Victoria Theatre in this city, asserted that the gross debt was in the neighborhood of $250,000,000, and the net debt $196,000,000. Elsewhere throughout the Dominion Cabinet Ministers, as well as the Conservative political stump sluggers, were equally bold in their assertion as to the correctness of their figures. Returns asked for last session were purposely held back in order that the electors might be kept still further in the dark as to the actual condition of affairs. The government knew that a day would arrive when it would be impossible to conceal its hand any longer. That period has been reached and the government's financial transactions for the year are before us. The gross debt on the 30th of last June was $273,164,341 and the net debt $223,159,107. It is now believed that these sums have been largely added to during the current financial year. To ascertain the correctness of this belief returns have already been asked for. A reduction in the assets of the Dominion from $68,295,915 to $50,005,234 is attributable to the acceptance of Northwest lands in payment of a part of the loan to the Canadian Pacific Railway Company and the wiping out of some harbor debts claimed as assets. The increase in the gross debt during the last financial year was from $264,703,607 to $273,164,341, an increase of $8,360,734; and the net debt from $196,407,692 to $223,159,107, an increase of $26,751,415. Comparing these figures with those of 1878 when the present party assumed power the gross public debt was $174,957,268 and the net debt $140,362,069. From the heads of accounts given below it will be observed that an enormous annual charge has been fixed upon the country for interest on public debt account. The average interest payable on the debt has increased within a few months from 3.08 to 4.02. It is claimed, however, that the interest derivable from investments made by the Dominion will reduce the charge in the rate of interest to an average of 2.86. The total receipts for the year 1885-6 were $33,177,040, of which $25,226,456 were from taxes levied on imports and inland revenue and $7,950,584 were derived from other sources. The total expenditure amounted to $39,011,612. By way of comparison we give the expenditure for the two last financial years in parallel columns, as follows:

| | 1886. | 1885. |
|---|---|---|
| Interest on public debt | $10,127,668 | $ 9,419,468 |
| Charges of management | 2,207 | 2,207 |

| Dominion police | 17,341 | 16,952 |
| Public works | 2,046,552 | 2,309,383 |
| Railways and canals | 87,456 | 95,029 |
| Steamboat inspection | 21,719 | 22,211 |
| Subsidies to provinces | 4,134,000 | 3,966,200 |
| Superannuation | 200,655 | 180,699 |
| Adulteration of food | 13,827 | 14,948 |
| Cutting timber | 49,284 | 70,589 |
| Customs collections | 880,197 | 797,337 |
| Excise | 910,022 | 839,398 |
| Dominion lands | 192,800 | 174,207 |
| Post office | 2,762,196 | 2,488,815 |
| Liquor license act | 80,545 | 2,230 |
| Railways and canals | 3,339,660 | 3,289,221 |
| Weights and measures | 84,250 | 81,977 |
| Minor revenues | 4,228 | 4,126 |
| Totals | $39,011,612 | $35,027,060 |

In addition to the above expenditures, $12,324,714 were expended, which included $6,476,400 upon Pacific railways, canals and other public works; $3,147,065 as investment loans to harbor boards, etc., and $2,701,249 as subsidies to railway companies. The following are the companies who received subsidies:

| | |
|---|---|
| St. Louis & Richibucto Railway Co | $ 21,100 |
| Pontiac & Pacific Junction Railway Co | 41,500 |
| Esquimalt & Nanaimo Railway Co | 422,570 |
| Northern & Pacific Junction Railway Company | 1,037,580 |
| Northern & Western Railway Co | 126,000 |
| Quebec & Lake St. John Railway Co | 186,745 |
| Quebec Central Railway Co | 80,342 |
| Canada Atlantic Railway Co | 48,490 |
| Montreal & Sorel Railway Co | 84,972 |
| Carsapnt Railway Co | 27,860 |
| Montreal & Champlain Junction Railway Co | 20,000 |
| Fisher, Hamilton & Manitoba Railway Co | 36,000 |
| North Shore Railway Co | [illegible] |
| | $2,701,249 |

"There is evidently an error in this sum being classified among the subsidies. The amount charged is doubtless part of the $750,000 to be advanced to Messrs. R. DUNSMUIR & Co. on part of the consideration for the construction and operating of the Esquimalt and Nanaimo Railway.

The sources from which the revenue of the country was derived are the following:

| | 1886 | 1885 |
|---|---|---|
| Customs | $19,372,551 | $18,393,628 |
| Excise | 5,972,904 | 6,440,101 |
| Post office | 1,991,600 | 1,841,372 |
| Public works & railways | 3,082,410 | 3,065,502 |
| Other sources | 1,966,585 | 2,569,398 |
| | $32,177,040 | $32,767,501 |

## POLITICS ACROSS THE LINES.

It reliance can be placed in the statements made by the leading press of the United States, party times are fast loosening in that country. It is very evident that faction fights are not as fierce, or as formidable as they were a few years ago. Americans no longer deem it that party loyalty demands that they should support the nominee of the party, whether he is good or bad, wise or unwise, and that they should stand by the party whether they approve of them or not. They are not to be deterred by an ill sounding nickname from voting as their individual judgment dictates. The mugwump is growing to be a power in the land, and he is not confined to a single party. Not only does the Republican vote for the Democratic candidate without hesitation when he approves of the principles he advocates, but the Democrat, when in his opinion the public good requires it, jealously works to secure the return of the Republican nominee. Then the political situation is complicated by the rapid rise of the labor party and the steady increase of the prohibitionist vote. The factors of the political problem are so numerous and the quantities so uncertain that it is a matter of great difficulty to arrive at even an approximate result. Who are to be the next presidential candidates and what are their chances appear to be hopelessly perplexing questions to the most sagacious and best informed of the party leaders. It would not be a matter of surprise if President CLEVELAND were again nominated as the Democratic standard bearer. It is well known that the Republican party is greatly divided. The Montreal *Star* is of the belief that no earthly consideration could induce large numbers of most respectable Republicans to vote for BLAINE, and SHERMAN does not find favor in the eyes of many of the most influential men of his party. These are the only two Republicans whose chances of nomination are as yet seriously discussed. The Republican party managers may have a more acceptable candidate in reserve, who, when he is brought out, may carry all before him. No one can even guess what may happen. In American politics it is often the unexpected that comes to pass, and the "dark horse" is as likely to win as any other. At this present moment, however, GROVER CLEVELAND seems the "favorite" among possible candidates for the Presidency.

## THE GOVERNMENT'S RESPONSIBILITY.

In an article on the Cowichan election, the Vancouver *Herald* endorses our contention that the government is responsible for the infamous amendment to the liquor license law passed during the late session. This amendment, it will be remembered, has special reference to Cowichan, where licenses had been refused by the licensing council. Our contemporary says:

"It is not easy to understand why a community should not take the first opportunity to express both in plain and forcible English any invasion of the rights of local self-government. It is true it would have been in effect censuring the government, for it is responsible for all legislation, whether public or private. The fact that the amendments were the work of private members does not relieve it of responsibility. It is in an especial manner responsible for public acts, because they are the sense of the electors embodied into acts of parliament and not to be tampered with, for the benefit of individuals. Changes sought for in public acts must come from those affected by them, and not from those who want to make gain out of them. Not only was the Licensing Court interfered with by the amendment, but it was set aside, and men responsible to nobody, but themselves and for their own gain, appointed to grant licenses. It is one of the most unprincipled attempts to defy public opinion that was ever heard of. A few men seemed to think that they own the province, and the people also, and want to use both for their especial benefit, without so much as saying with your leave. No government, worthy of the name, would have tolerated legislation of this kind. They are the guardians of the legalized rights of the community, and when they refuse or fail to protect them, they ought to step down and out. They knew that this was a gross violation of municipal law, and directed against a community, who were opposed to the issue of licenses for the sale of liquor in their midst. All that the Government does is to offer a protest through one of its members, and seems to consider in so doing that it has discharged its whole duty. It has done nothing of the kind, and evidently prefers to risk anything but office. Another invasion of municipal rights may take place at any time if they happen to stand in the way of the selfish schemes of those who can bring influence to bear on the House and the Government. *The people would do well to wake up and make their power felt, or they will be made the plaything of schemers and tyrants.*"

The other day a Massachusetts church sent to a well-known theological seminary for a student, specifying as their chief desire that he should be a Christian. A sister seminary received about the same time a communication from a rural church, running as follows: "We don't want any young man; we want an old man or a married man. The young men cause trouble to the food mothers, flirt with the girls, and give us veal instead of beef."

Considerable inconvenience and loss has been suffered by Canadian publishers owing to the present condition of the copyright laws, and the Dominion parliament has no power to legislate on the question. At present American publishers are able to reproduce British copyright works without paying a royalty or considering the rights of original authors at all, and American editions of British copyrights are sold in Canada at low prices. Mr. Edgar purposes asking whether it is the intention of the government to introduce a measure placing Canadian publishers upon the same footing as American publishers in regard to the reprinting of British copyright works, or whether Her Majesty is to be memorialized on the subject of modifying any imperial legislation which is restrictive of the power of the Canadian parliament respecting copyright in Canada.

There are now 128,761 Indians in Canada. 91,344 of whom live on reserves. The sum of $1,159,568 was expended on them by the Dominion government last year. How much of this reached the red men, and how much was spent on officials, cannot be stated till the full returns are received.

As a preventive of forgeries the board of presidents of the Philadelphia banks has resolved that notices of all notes and acceptances received by them will be sent to the makers forthwith. The *Ledger* speaks of this action as a commendable addition to the safeguards of banking, and a step in the right direction.

It is amusing in a certain sence, after all the boasting of the country having been carried on the N. P. cry, to read that Sir TUPPER is so overwhelmed with deputations asking for changes in the tariff that he has resolved to limit the time in which he will receive them. Are we to infer that he is reserving his strength to negotiate that treaty with Spain?

OUIMET is a tall and rather handsome man, of distinguished manner and bearing, speaks both English and French with fluency, and may be expected to fill the speaker's chair with dignity and fairness. Of course, with a former "Rielite" in the chair of the commons, the house will not be troubled with a very frequent use of that epithet from the ministerial side.

### No. 141.

## A BYLAW

**Respecting the Expenditure of the Municipal Revenue for the Year 1887.**

[Passed 18th April, 1887.]

WHEREAS the Council hereinafter mentioned have caused an estimate to be prepared of the Municipal revenue for the year 1887, and of the expenditure required for the service of that year, a copy of which estimate is hereunto annexed.

AND WHEREAS it is expedient to authorise by Bylaw the expenditure of the said revenue in accordance with the said estimate: Therefore—

BE IT ENACTED by the council of the Corporation of the City of Victoria as follows:

1. It shall be lawful for the said Council to appropriate and expend the municipal revenue of the said Corporation for the year 1887 for the several purposes and in the manner named or indicated in the estimate hereunto annexed or as nearly as circumstances permit.

2. All expenditure heretofore incurred by the said Council out of the municipal revenue for the said year is hereby confirmed.

## A BY-LAW

**To Regulate the Erection and Construction of Buildings, to Limit the Erection, Alteration or Enlargement of Wooden Buildings, and to Regulate the Removal of Buildings.**

(Passed 13th April, 1887.)

BE IT ENACTED by the council of the Corporation of the City of Victoria as follows:

**Short Title.**

1. This By-Law may be cited as the "Building By-Law."

**Interpretation.**

2. The "Interpretation By-Law" applies to this By-Law.

**Inspector of Buildings.**

3. The Council shall from time to time appoint a competent person to be Inspector of Buildings, at such salary as the Council may think fit to provide. [No. 99 s. 1.]

4. The duties of the Inspector of Buildings shall be—

(a) To oversee the erection of all buildings to be built, enlarged, altered or re-erected; and

(b) To enforce the provisions of this By-Law. [No. 99, s. 2.]

5. Until otherwise ordered by the Council, the City Surveyor shall perform the duties of the Inspector of Buildings. [No. 99, s. 3.]

**Regulations During Erection.**

6. In all cases of erecting any building on the line of any street or public road, or within seven feet thereof, the builder shall erect a board fence six feet high (unless one-half the sidewalk allowance in front of such building), and lay a planked pathway at least four feet wide, outside of such fence, for the convenience and security of the public; or he may, instead of such fence and pathway, cloak over the whole of the scaffold at the height of the first floor above the ground floor, and enclose such scaffold at the same height at least eighteen inches all round above the level of the said planked floor, the sidewalk being left free for public use. [No. 99, s. 6.]

7. No person shall place any lumber, stone, or other building material, or any ships, shavings, or rubbish on any sidewalk, except within the aforesaid fence; and when buildings are being erected on any street no person shall occupy more than one-third of the roadway with any such building material; and no person shall place any such stone, lumber, or building material so as to obstruct the free passage of water in the drains, gutters, or watercourses; and no person shall permit or suffer any such building material to remain on the street any longer than is necessary for the erection of the building for which such material is designed; and on the completion of any building the builder or owner thereof shall within three days thereafter entirely remove all materials from the street and cause the street to be cleaned from all such building material and left in good repair. [No. 2, s. 2, part No. 99, s. 7.]

**Structure.**

8. The wall of every building abutting upon any street, road, or public place, shall be parallel with the frontage of such street, road, or public place on which it abuts. [No. 99, s. 30, part.]

9. No building, veranda, balcony, or portion of any building shall project or encroach in or over any street, road, or public place, or the sidewalk or sidewalk allowance thereof. [No. 35, s. 17; No. 99, s. 30, part No. 138.]

10. The external walls and party walls of every brick or stone building shall be in accordance with the following specifications:

ONE STORY BUILDINGS.—Outside walls and party walls shall not be less than one brick or 8½ inches thick, and such walls shall not be more than 14 feet in height, or more than 50 feet in length, unless strengthened by cross partitions or other means approved by the Inspector of Buildings. Walls one brick and a half or 12½ inches thick, shall not exceed 18 feet in height nor 70 feet in length unless strengthened by cross partitions or other means approved by the Inspector of Buildings.

TWO STORY BUILDINGS.—Outside walls and party walls of ground floor shall be not less than one brick and a half or 12½ inches thick and shall not exceed 16 feet in height nor 70 feet in length unless strengthened by cross partitions or other means approved by the Inspector of Buildings. Outside walls and party walls of first floor shall be not less than one brick of 8½ inches thick nor more than 14 feet in height nor 50 feet in length unless strengthened as aforesaid.

THREE STORY BUILDINGS.—Outside walls and party walls of ground floor shall not be less than two bricks or 17½ inches thick nor more than 17 feet in height nor 100 feet in length unless strengthened as aforesaid. Outside walls and party walls of first floor shall not be less than one brick and a half or 12½ inches thick nor more than 14 feet in height nor 50 feet in length unless strengthened as aforesaid. Outside walls and party walls of second floor shall not be less than one brick or 8½ inches thick nor more than 12 feet in height nor 50 feet in length unless strengthened as aforesaid.

ALL BRICK OR STONE BUILDINGS.—For every additional 20 feet in height or two feet in height, or any fraction thereof respectively, added to any of the above measurements, one-half brick or 4½ inches in thickness shall be added to the thickness of the walls of each story. And the brick or stone work of every such building shall be carried to such height as may be requisite to effectually protect the roof of the building from any adjoining building to the satisfaction of the Inspector of Buildings. Basement walls shall not be less than 4½ inches thicker than the walls under which they are built, and shall be of either stone, or brick. Foundations to buildings not having basements shall be not less than 18 inches in the solid ground, nor less than 4½ inches thicker than the walls under which they are built, and shall be of brick or stone. Roof coverings shall be of slate, tin, iron, or other incombustible materials. [No. 35, s. 7; No. 99, s. 9, part.]

11. All party walls shall be between building and building, except where each building has independent walls. Party walls not being of sufficient thickness shall be taken down when an adjoining building requires to be rebuilt. Ends of timbers lying through old party walls shall be cut off when new buildings are erected against them. External walls shall not become party walls unless they have been constructed of brick or stone and in accordance with the provisions of the last preceding section of this by-law. The brick walls of any party walls and external walls shall be properly bounded or anchored in every case. [No. 99, s. 10.]

12. No timber shall be laid into any party arch except for bond, nor into any party wall other than such templets, chains and bond timbers as may be necessary, or the ends of girders, beams, binding or trimming joists, or other principal timbers, all of which timbers shall have at least four inches and a half of solid brick work between the ends and sides thereof and the centre of any adjoining building; and the ends of every girder, beam, binding or trimming joist, or other principal timber, may be laid beyond the centre of any party wall, provided there be left four inches and a half of solid brick or stone work at the end of every such piece of timber, except where any part of the ends of such timber shall lie opposite to and level with any part of the ends of any timber of an adjoining building, in which case no part of such timber shall approach nearer than two inches to the centre of the party wall. [No. 99, s. 25.]

13. Breast-summers shall in all cases be carried on brick or stone walls or piers, or on cast-iron columns seated on stone, and shall in no case be carried on story posts or other timber supports; and when the ends of any breast-summer approach the centre line of any party wall nearer than four inches and a half such ends shall be encased and entirely surrounded in cast-iron shoes. [No. 99, s. 26.]

14. All chimneys back to back in party walls shall be to the chimney back at least one brick or 8½ inches in thickness, to the height of at least twelve inches above the mantel. Chimney backs in party walls not being back to back with any other chimney shall be at least 8½ inches clear from the party line. All flues built in any wall shall be surrounded by brick-work not less than seven inches in thickness. [No. 99, s. 27.]

15. All chimney stacks shall be carried to a height of four feet at least above the ridge or deck of any roof carried by, passed or built, or abutting upon the wall to which such chimney stack is attached; except where the ridge or deck is more than six feet in height above the base of the chimney, in which case the height of the chimney shall be determined by the Inspector of Buildings. Where a chimney stack is used to carry away smoke or noxious vapours from a manufactory, the stack shall be carried to such a height as to effectually clear the surrounding buildings to the satisfaction of the Inspector of Buildings. All chimney stacks shall be built of stone, brick, or iron, and capped in the most substantial manner. [No. 99, s. 8.]

16. All chimney hearths shall be laid wholly on brick or stone in cement, unless they be in a cellar or basement story and bedded in solid earth; and every chimney shall have a slab or foot-piece of stone, brick, marble, iron or cement, at least sixteen inches broad, and extending at least six inches beyond each end of the opening, before every fireplace opening. [No. 1, s. 6, part No. 99, s. 28.]

17. No timber shall be laid within two feet of the inside of any oven, copper, still, boiler or furnace, nor within nine inches of the opening of any chimney, nor within seven inches of the inside of any metal flue, nor within four inches and a half of the inside of any brick flue, unless the wood is effectually protected to the satisfaction of the Inspector of Buildings. [No. 1, s. 6, part; No. 99, s. 29.]

18. No pipe or funnel for carrying steam or hot air shall be fixed next any street or public place, or on the front of any building. [No. 99, s. 30, part.]

19. All doors in theatres, music halls, hotels, churches, and other buildings used for the assembly of large bodies of persons shall be constructed to open outwards; and ample provision shall be made for the rapid emptying of such buildings. [No. 99, s. 32.]

**Fire Limits.**

20. All that portion of the city which is within the line next hereinafter described shall be known as the Fire Limits, namely: Commencing at the north-west corner of lot 127 (one hundred and twenty-seven), thence running eastwardly along the northern boundary of that lot and continuing in a straight line to the centre of Store street, thence northerly along Store street to a point opposite the centre of Pleasant street, thence eastwardly across Store street in a straight line to and along the centre of Pleasant street to the centre of Douglas street, thence southerly along the centre of Douglas street to a point opposite the centre of Courtenay street, thence in a straight line to and along the centre of Courtenay street and to the centre of Wharf street, thence in a straight line to the north-east corner of lot 8 (eight), thence along the northern boundary of that lot to the shore of Victoria Harbor, and thence along the shore line of Victoria Harbor to the point of commencement. [No. 118, s. 1; No. 103, s. 3.]

21. No building other than with main walls of brick, iron or stone and roofing of incombustible material shall be erected or placed within the Fire Limits. [No. 52, secs. 2 and 4; No. 98, secs. 21 and 23, part; No. 116, s. 3.]

22. No addition to or alteration of any wooden building within the Fire Limits shall be made. [No. 52, s. 4; No. 116, s. 2.]

23. The two last preceding sections of this by-law shall not prevent any shed erected within the curtilage of another building and used exclusively for the storage of fuel for consumption in such other building, such shed not exceeding ten feet by twelve (12) feet in breadth nor ten feet in height, nor to any water closet or earth closet; nor shall they apply to any shed erected wholly on or over the wooden piles of any wharf on the shore of Victoria Harbor; but no shed shall be erected on or over any wharf within the Fire Limits other than with roofing of incombustible material. [No. 116, s. 5.]

**Removal.**

24. No person shall remove, or cause or permit to be removed, any building into, along or across any street or public place without having first obtained permission, in writing, for that purpose from the Street Committee. [No. 103, s. 1.]

25. Every application for permission to remove any building shall be in writing, shall describe the building and its location and the place to which it is to be removed, and shall state the streets required to be used and the number of days for such removal; and it shall be accompanied by a valuation, to be obtained for this purpose from the City Surveyor, of the building to be removed, and by a fee of ten dollars for the use of the Corporation. [No. 103, ss. 2 and 3; No. 117, s. 1.]

26. No permission shall be given to remove any building into, along or across any street or public place, unless such building shall appear by the valuation of the City Surveyor accompanying the application as aforesaid to be worth at least two hundred and fifty dollars. [No. 103, s. 4; No. 117, s. 2.]

27. Every permission to remove a building shall state the route by which, and the number of days within which, such removal is to be effected. [No. 117, s. 4, part.]

28. Every person who has obtained permission as aforesaid to remove any building shall forthwith remove the same in accordance with such permission and not further or otherwise, and shall, during such removal, place and keep a conspicuous light on the front and another on the back of the building under removal from sunset to sunrise. [No. 103, s. 5; No. 117, s. 3.]

29. In case any person remove any building into any street or public place without having obtained every permission therefor as aforesaid, or into any street or public place not named in such permission, or leave any building in any street or public place longer than the time limited by such permission, it shall be lawful for the Mayor or the Street Committee to cause such building to be pulled down or removed, and all costs and expenses attending such pulling down or removal shall be repaid by the owner of such building to the Corporation, and shall be recoverable, with costs, in like manner as any penalty for the infraction of a by-law. [No. 117, s. 4, part.]

**Dangerous and Irregular Buildings.**

30. Whenever any building shall be so much decayed or from any cause injured as to be, in the opinion of the Inspector of Buildings and the Council, dangerous persons, or whenever any wooden building hereafter erected and still standing within the Fire Limits herein described, or any building, veranda, or portion of a building hereafter erected or constructed otherwise than in accordance with the requirements of this by-law, shall, in the opinion of the Inspector of Buildings and the Council, have become decayed or injured to the extent of one half or more of the original value or cost it shall be the duty of the Inspector of Buildings, under the direction of the Council, to notify in writing the owner, agent, occupier, or other person having charge of such building, veranda, or portion of a building to remove or pull down the same forthwith; and the person so notified shall cause the same to be removed or pulled down within ten days after such notification; and in case any person so notified fail to comply with the terms of such notification within ten days thereafter, it shall be lawful for the Council to authorize by resolution any officer therein named to remove or pull down the building, veranda, or portion of a building in question. [No. 52, s. 6.]

31. Whenever any building in course of erection, enlargement, alteration, or repair, shall be deemed unsafe by the Inspector of Buildings, the owner, contractor, agent, or person having charge thereof shall be notified at once to make the same safe and sooner and every person so notified shall forthwith make such building safe and secure according to the terms of the notification. [No. 98, s. 19.]

**Enforcing Regulations.**

32. It shall be lawful for the Council to authorize a constable or any other person named to pull down or remove any building which shall have been constructed or placed in contravention of this by-law; and all costs and expenses reasonably incurred in such pulling down or removal shall be repaid by the owner of such building to the Corporation, and shall be recoverable, with costs, in like manner as any penalty for the infraction of a by-law. [No. 116, s. 4.]

33. Every person convicted of an infraction of any of the provisions of this by-law shall forfeit and pay therefor a penalty not exceeding fifty dollars. [No. 52, s. 3; No. 103, s. 7.]

**Repeal.**

34. "The By-law for Prohibiting the Erection of the By-law to amend the By-law for the Protection of the city against Fire (No. 107 Wooden Buildings, 1879)" (No. 52), the "By-law to Repeal the By-law for Prohibiting the Erection of Wooden Buildings Amendment By-law, 1882," (No. 95), the "By-law to Repeal the By-law for Prohibiting the Erection of Wooden Buildings Amendment By-law, 1882," (No. 95), sections 1, 2, 3, 5, 6, 7, 8, 9(9, 10, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32 and 33 of the "Victoria Building By-law, 1883," (No. 98), the "Victoria Building By-law, 1883," (No. 98), the "By-law for prohibiting the Erection of Wooden Buildings, 1879 Amendment By-law, 1883," (No. 102), the "Buildings Removal By-law, 1883, (No. 103), the "Fire Limits and Wooden Building By-law, 1883," (No. 116), except section 5, the "Building Removal Amendment By-law, 1885," (No. 117), section 1 of the by-law entitled "A By-law to amend the Consolidated Sidewalk and Awning By-law, 1883," (No. 120), and so much of section 2 of the "Sidewalk and Awning By-law, 1883," as repeals section 3 of the last mentioned by-law, or makes any provision for any matter therein provided for, are hereby repealed; and this by-law is substituted for them. 423

## UGLY ELEPHANTS.

THRILLING STORIES OF THEIR WICKEDNESS IN CAPTIVITY.

Treachery of Romeo, Mogul, Queen, Empress and Other So-Called "Tame" Pachyderms—All of them Afraid of a Rat or Mouse.

The worst elephant that ever walked in a circus parade in the United States was Forepaugh's well known big elephant Romeo. He was as full of mischief as a monkey, and as dangerous as a dynamite mine. He was not bad in spells, but always bad, and his attendants never knew when his big trunk was going to swing at them with the force of a battering ram. He considered every man who traveled with the Forepaugh show his born enemy. He had a special dislike to Adam Forepaugh, Sr., and never lost an opportunity to attempt the veteran showman's life. Whenever Mr. Forepaugh went near him he would make a swipe at him with his trunk or throw at him the first missile he could find. When the show came to Philadelphia to winter Romeo had to be chained in the middle of a big room alone, out of reach of the sides and top. His chains had to be fastened to a post anchored about ten feet in the ground. His hind legs had to be fastened with chains stretched obliquely out and back from him.

Whenever an especially violent fit of temper seized Romeo it was necessary to throw him and beat him into submission. The throwing was accomplished by fastening block and tackle to the chains on the hind legs and drawing those members up under his big body until he was compelled to let himself down. Once down he was chained tight and held, while a dozen men would surround him and thrash him with poles until he trumpeted "enough." It frequently took ten hours to beat him into submission, and he was often kept lying on the floor for three or four days before he would give in.

The last seven years of his life Romeo depended on one eye to guide his elephantine way through life. The other was shot out by his keeper, Stuart Craven, one day in the fall of 1883, on Ridge avenue, Philadelphia, after Romeo had broken down the brick wall of the animal house where Forepaugh was wintering. Romeo took a notion to wander, and after raising merry war among the other animals, he butted down the brick wall of the house and started down the Ridge. Stuart Craven followed him with a shotgun and emptied about a pound of shot into Romeo's leather hide. One load took effect in one of his eyes and blinded him, and at the same time conquered the big brute so that he allowed himself to be driven back to his quarters.

A couple of years later Romeo killed an attendant named "Canada Bill" at Hartboro, Pa., by throwing him against a wall and then getting him in front of him and kneeling upon him. "Elephant George," an attendant, was nearly drowned by him while riding across a river on the elephant's neck. Romeo dived three times in the attempt to drown George, who was rescued just in time by the other people of the show, who went after him in boats.

Romeo died in Chicago in 1873 from lockjaw, caused by the sores made on his ankles by the shackles. His skeleton is now mounted in the College of Surgeons and Physicians in Chicago. In his time he killed three men and destroyed $50,000 worth of property.

Mogul, an elephant that was owned by John O'Brien, had a propensity to knock down and kneel upon anybody who was near him when he took one of his fits of bad temper. He was a hard animal to conquer, and it frequently took several days' thrashing. He was killed in 1871 in an attempt to subdue him. He was kept lying down for four days on damp ground after a thrashing, and he caught cold and died of pneumonia.

Chief and Queen, two elephants of the Barnum herd, were sold to Mr. Forepaugh last spring for $2,000. This low price was accepted for them on account of their dangerous temper. Queen had an unexplainable hatred for James A. Bailey, of Barnum, Bailey & Hutchinson, from the first time she saw him, and the big brute never lost an opportunity to make an attempt upon his life. At the opening of the season two years ago in Madison Square garden, she nearly succeeded in accomplishing her designs on Mr. Bailey. Queen was in the process of coming down the track, and Mr. Bailey was walking in the opposite direction. When Queen saw him coming she edged out toward him, and as Mr. Bailey got opposite her there was a post behind him. Queen saw her opportunity and swerved suddenly toward him, attempting to catch him between her huge body and the post and squeeze him to death, but Bailey saw her purpose just in time and sprang aside, escaping by a hair's breadth.

Pickaninny, the little clown elephant, known all over the country on account of his funny performances with the clown, Charlie McCarthy, was performing at Slocum's minstrels several weeks ago, and kept his temper well enough until the last night, when he took a notion to play the bad elephant. He started by knocking his keeper down, and then picked him up and threw him against the wall. The man was nearly dead when McCarthy rescued him.

Emperor, who was Jumbo's side partner with the Barnum show during the season before last, took a fit of stubbornness on him in Troy, N. Y., while being driven through the street, and he broke away and went on a rampage. He got into an iron foundry and burned his feet, and then ran into a crowded street. Before he was caught and chained he had injured four men and a woman, and had done $4,000 worth of other damage.

When Adam Forepaugh started in the menagerie business he had but two elephants with him. They were Romeo, the wickedest in the country, and Annie, a black African elephant, the trickiest on the road. It was Annie's delight to frighten farmers' teams into running away, and she was never happier than when she could scare a cow out of seven years' milk. Whenever she saw a cow on the road out went the big ears like sails, trunk and tail were elevated, and with a soul harrowing series of trumpetings Annie would make at the cow, and in about five seconds that cow, surrounded by a cloud of dust, would disappear over the horizon.

The biggest and wickedest elephant in the country will back off from a rat or mouse, and will tremble and trumpet if advanced upon by the little animal.—Philadelphia Record.

**Manufacture of Paper Bottles.**

Paper bottles, capable of fully withstanding the effect of alcoholic fluids, and unbreakable, are manufactured in the United States. Paper is first made from ten parts rag, fifty parts wood and forty parts straw stock. Both sides of the sheet are covered with a mixture of defibrinated blood and powdered lime. Ten thicknesses of this material are placed one on another, and they are then pressed in a hot metal mold until they assume the form of half a bottle. The two halves are then united under the influence of heat and pressure into a perfect bottle.—Boston Budget.

**Absolution Granted.**

The Accident News tells of two well known newspaper men of this city who met the other morning with confirm hearts and big heads, and swore off for six months. At 5 o'clock that evening one was sipping a glass of seltzer when the door opened and No. 2 entered very intoxicated. He paused to recover his balance, perceived his friend, straightened up, and, advancing to the latter, said with great dignity: "I absolve you from your pledge. Drink (hic) all you please."—New York Sun.

Is the justly earned motto of the light-running "Domestic" Sewing Machine. In its mechanical construction it has no rival but many imitators.
The new line of attachments that are now sent with each "Domestic" are specialties that no other machine has.
Do not buy a Sewing Machine because it looks like the "Domestic" and can be had a few dollars cheaper. "The best is the cheapest," and that is the light-running "Domestic."

TO THE ELECTORS
OF
**Cowichan District.**
GENTLEMEN:
Yielding to the request of many friends who have urged me to come forward as a candidate for the vacancy now existing in this district, I consent to do so. My views are known to most of you, who have resided any length of time in the district.
As being opposed to the reckless policy of the present and late governments—a policy which if persisted in will soon land the province in complete bankruptcy.
I am opposed to the large civil service list, a list which is constantly growing under the spoils system of the present government.
I am opposed to monopolies of all kinds, believing laws should be enacted for the many and not for the favored few.
I am opposed to increasing the Cabinet to five members, as it will entail a large additional expense on the country. For many months the work has been discharged by two ministers.
I am also opposed to the system adopted by the government for borrowing large sums of money. I am in favor of submitting the matter to the people for their verdict.
I shall form as liberal an expenditure of public money, on public works and improvements as the finances of the country warrant. I will insist on all public works being executed by contract, and that the expenditure shall be kept within our income.
There are many other matters which might be mentioned, but I expect to be able more fully to discuss them with the electors at meetings to be held, due notice of which will be given hereafter.
I am, Gentlemen,
Yours truly,
JOHN M. EVANS.

**Astonishing Success.**

It is the duty of every person who has used *Boschee's German Syrup* to let its wonderful qualities be known to their friends in curing Consumption, severe Coughs, Croup, Asthma, Pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case, and we consider it the duty of all Druggists to recommend it to the poor, dying consumptive, at least to try one bottle, as 80,000 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the *German Syrup* cannot be too widely known. Ask your druggist about it. Sample bottles to try, sold at 10 cents. Regular size, 75 cents. Sold by all Druggists and Dealers, in the United States and Canada.*

An amusing incident occurred Thursday afternoon after the House adjourned. A new representative from one of the Maritime provinces mistook one of his fellow members for a messenger and began ordering him around in lively style. "I want some pens and paper and envelopes quick," said the man from the seaside, and he seemed greatly astonished to find that the member he addressed only looked at him and smiled. An introduction by a mutual friend of the two legislators followed, and an apology was of course in order.

**Pushing the Work.**

The *Post-Intelligencer* says: The railroad contracting firm of Thomas Earle & Co. have established a general office in the basement of the Post Building, in the room formerly occupied by Wells, Fargo & Co. and the First National Bank. Mr. Perry, a member of the company, stated yesterday that they already had sixty men at work clearing the right of way on their thirty-mile contract, and that the number would be increased from day to day as new camps can be established. During the months of June and July they expect to employ between four and five hundred men. The first camp is established on the shores of Lake Washington, six miles this side of the mouth of Squak Slough. They will establish three or four more camps farther along during next week. Early in May they will commence crowding the grading and push it right through.

**Marriage Bells.**

At Christ Church Cathedral, on Thursday night last, Mr. Robert J. W. Atwood, clerk with D. E. Campbell, druggist, Fort street, was united in marriage with Miss Laura Bentley, adopted daughter of Mr. Farr, of the mainland. The bride was supported by Miss Leech, while the groom's best man was Mr. Reginald Nuttall. The wedding was quietly conducted, only a few intimate friends and relatives being in attendance. The happy young couple have the best wishes of a host of friends on their new departure in life.

In our Saturday's edition an error was made in the name of Mrs. H. A. Barry, now of Vancouver, who was married in the Royal City last week. The maiden name of that lady was Miss Howay and not Harvie, as printed by us.

**Cruelty to Animals.**

In the police court this morning was the case of A. W. Lawson on remand for cruelly beating a horse. A number of witnesses were examined. One said that it was his horse that was being broken in and he found no fault. Another said that if it had been his horse he would have whipped it more. A murderous-looking whip, the instrument of torture, was produced, the butt of which is capable of killing a human being. On the strength of the evidence adduced the Court could not hold the defendant, so he was discharged. There is no doubt but that the noblest of animals is often maltreated.

**The Mexico.**

The Mexico returned from the Mexico at 10 o'clock last evening. She will leave again to-morrow morning with more men, &c., and active operations will be commenced. It is understood that the plan to save her will be to blast out the rock on which she is hard and fast, pump her out and then trust to the high tides to float her. Calculations are made that this will be accomplished by the 5th of May. An eye witness informs us that the unlucky vessel is a magnificent object to gaze upon with her bow high out of water and in front of her tall, dark trees. To the landsmen, no doubt, it is beautiful.

**Chinese Restriction Act.**

It is reported that the amendments to the Chinese Restriction Act will include the abolition of issuing certificates to Chinese leaving the country. Nothing is said however about merchants crossing the Sound to attend to their business. The imposing of an entrance of $50 on each Chinaman coming into the country, no matter how often, is a step in the right direction and one which it is believed will effectually put a stop to Chinese imigration.

**Marriage in High Life.**

The nuptials of C. B. Alexander of New York and Miss Hattie Crocker, only daughter of the railway king, Charles Crocker, of San Francisco, will be celebrated to-morrow morning in San Francisco. After the wedding the couple will visit Crocker's residence in Sacramento, after which they will go abroad for a trip. They will return to live in New York city. It is understood a handsome residence together with a check for a million which the bride is to have as a wedding present, is from her millionaire father.

**The Elder.**

The Geo. W. Elder sailed at 1 o'clock yesterday afternoon for San Francisco, having arrived from the Sound at 10.30 in the morning. Capt. Ackley told a Seattle reporter that the ship was on the bar in the Upper Narrows of Burrard Inlet eighteen hours, owing to a slight lack of judgment of the pilot, Captain Gaudin. Much delay was caused by having to lighten the ship, but no damage was done.

**Only a Slungshot.**

In the police court to-day Officer Hoosan produced a blue silk handkerchief and a piece of lead which was taken from one of Saturday night's "blokes" on Douglas street by the officer. The prisoner, a hard-looking case, denied having the silk handkerchief and lead for a slungshot, but Officer Hoosan was positive that it was intended for that use, and graphically described to the court how it could be used. The case was remanded till to-morrow.

**He Raised a Point.**

Willis Bond again appeared in the police court to-day for the defence of Henry Gant, charged with taking gravel from Beacon Hill. Willis came to court armed with divers documents wrapped in his favorite newspaper—THE TIMES, and raised a mighty point in demanding the street committee to appear at court on Friday next. Mr. Bond is a Blackstone.

**Coming to British Columbia.**

It is announced that the Hon. Mr. Thompson, Minister of Justice, will visit British Columbia during the recess. The Hon. John Carling purposes visiting the Northwest after the session, in connection with the selection of a site for the experimental farms. It is possible he will extend his trip to the coast.

### ST. GEORGE'S DAY.

**The Banquet at the Clarence a Grand Success.**

It should go without saying that the banquet on Saturday night, in commemoration of St. George's Day, was a magnificent success. When a company of English gentlemen have assembled at the festive board, in the Clarence Hotel, and on the anniversary of their patron saint, the logical inference is that the occasion has been one of more than ordinary pleasure and enjoyment. About eighty guests sat down at the tables, which were conveniently arranged and very tastefully decorated. The president of the society, Mr. M. W. T. Drake, occupied the chair, having on his right Col. Stevens, U. S. Consul, and President McNiffe of the Pioneer Society, and on his left Aid. Walker of the St. Andrew's Society, Toronto. Mayor Fell filled the position of vice-chairman. The *menu* contained everything that could be desired, and the style in which it was prepared and set before the guests would have done no discredit to Delmonico, prince of *restaurateurs*. Mr. Richards surpassed all his former efforts in this line, and established his reputation as a first-class caterer. Haynes' band played choice selections of music at short intervals, and a small army of attentive and obliging waiters attended to every want. Letters were read from Lieut.-Governor Nelson, Rear-Admiral Sir Culme-Seymour, Lieut. Garforth and Capt. J. Irving, regretting their inability to be present. The customary toasts were proposed, and responded to by speech or song, and at 12 o'clock the banquet was brought to a close by "God Save the Queen," sung by the whole company. The speeches were short, witty, and eloquent, while the songs were "grave and gay, humorous and severe," and well sung, and both were received with tumultuous applause. The banquet was in every particular a complete success, and left nothing to be desired by the delighted company of *bon vivants* who assembled to do honor to St. George.

### OBITUARY.

**Number of Deaths--An Old Pioneer Takes His Departure.**

J. McInnes, formerly a resident of Wellington, was killed by choke damp with fourteen other miners when making an attempt to save the lives of imprisoned miners, at a coal mine in the Indian Territory. He was a member of Harmony Lodge, I. O. O. F.

W. W. Pettigrew, of Nanaimo, fell suddenly to the ground on Thursday, and died same night. He was a native of Glasgow and 32 years of age.

Rev. W. B. Colyer, for two years missionary at Bella Bella, and recently residing in Nicola for the benefit of his health, died a few days ago at the latter place. Finding himself sinking, he was about to start to his old eastern home but death intervened at the very beginning of the journey. He leaves a wife and two children.

On Sunday, April 15th, when the steamer Belle was off Cape Lazo, Robert Thomas Cliff fell overboard and was drowned. The body has not been found. Deceased was a logger, residing in Comox, and brother of Mr. S. Cliff, of the Lorne Hotel, Comox. He was a native of Gunstone, Staffordshire, Eng., aged 45 years, came to the province in 1862 and was well known in this city.

The funeral of the late Thomas Harris was one of the largest ever seen in Nanaimo. Deceased was a great favorite with everybody, and grief, on account of his death is universal in this city.

James Gowdie, a well-known pioneer of this city, died at his residence on Blanchard street, near Fort, on Saturday evening, aged 77 years. He was a native of Stromness, Orkney Islands, and came to Fort Vancouver as a blacksmith for the H. B. Co. in 1827, and to Victoria with Sir James Douglas at the time this port was founded. Mrs. Greig of Saanich and Mrs. Meecham, formerly of Cariboo are daughters of the deceased.

### PERSONALS.

Mr. and Mrs. A. S. Going left on the North Pacific to-day for their home in Seattle. The happy young couple were seen off by a number of friends, and left amidst a shower of rice and waving handkerchiefs.

**The Iron Industry.**

Quite a revival has recently taken place in this industry in eastern Canada. New companies are being organized in every province to embark in the manufacture of iron and developing our mineral resources. The Montreal *Star* has devoted considerable attention to the subject. In its issue of the 16th inst., it states that the International Mining, Smelting and Manufacturing Company of Winnipeg propose to start charcoal blast furnaces, and the Moss Bay Iron and Steel Co., of Workington, Engr., have announced their intention to establish branch iron works on the coast of British Columbia. Fully a dozen companies are organizing and when it is known that a blast furnaces costs from $300,000 to $400,000 it will be understood that these blast furnaces would represent a large capital.
